

## Choosing Diamonds

Diamonds are distinguished primarily by their colour and clarity. The guide below will help you choose the right Diamonds at Jewelebrate

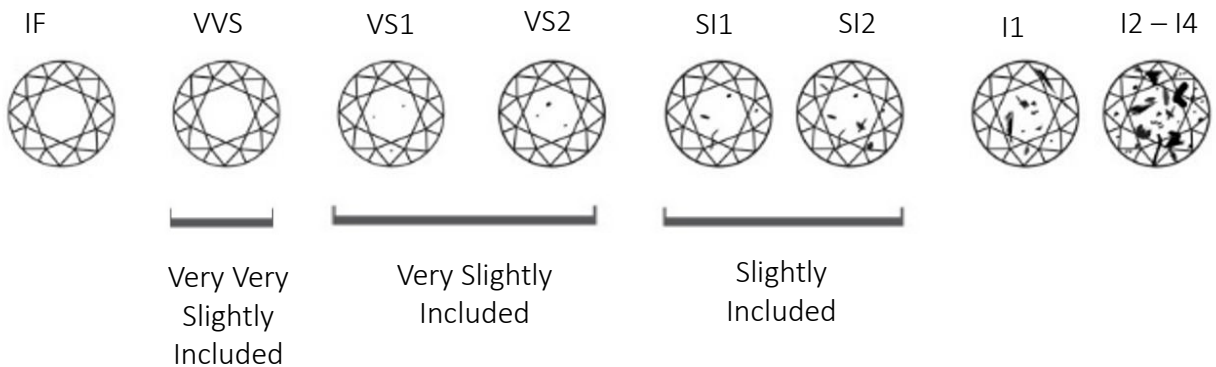

### Diamond Colour Chart

Gemological Labs grade Diamond Colours from D to Z where D E F colours are colourless G H colours are near to Colourless and I J have a slight tinted colour. Jewelebrate does not offer colours below K as they are offered at very high discounts.

### Diamond Clarity Chart

Gemological Labs grade Diamond Clarity from IF to I4 where IF is the clearest quality without any Inclusions and I4 having a lot of inclusions. Jewelebrate does not offer clarity below SI2 as they are offered at very high discounts.

With a firm belief in proving nothing but the very best to our customers, we offer you diamonds of the finest quality. That’s why, even though Gemological Labs grade Diamonds below IJ color and below SI clarity, Jewelebrate does not offer them. Jewelebrate customers can always buy jewellery with peace of mind knowing that the diamonds will always be of good quality

## Choosing Diamonds

With a firm belief in proving nothing but the very best to our customers, we offer you diamonds of the finest quality. Hence Jewelebrate does not provide lower quality diamonds even though Gemological Labs grade Diamonds below IJ color and below SI clarity. Jewelebrate customers always buy jewellery with a peace of mind.
